

Ivanti Endpoint Manager Mobile (EPMM)

Admin Master Class (3 Days - in German)

 **Time:** 08.00 - 17.00 Uhr

 **Location:** Nomasis AG, Spinnereistr. 12,
8135 Langnau am Albis

Mobile solutions are on everyone's mind. Today, hardly any company can do without mobile applications. This results in many new challenges for your modern IT system landscape. How do you protect the data on mobile devices? And how do you ensure that users are not disturbed in their work? After all, users expect the same user experience from company apps as they do in their private lives.

Ivanti offers suitable solutions that can be seamlessly integrated into your current mobility strategy. In this training, we will provide you with the necessary knowledge and skills that are required for the use of MobileIron from an administrative point of view. You will gain insight into the individual products that are part of the Ivanti Suite.

This Master Class is characterised in particular by its practical relevance in order to provide you with the necessary skills both in theory and in practice.

Key Facts
